Pre-cut & Packaged Produce Applications*

Multi-Deck Convertible Merchandiser With Four Display Levels

HUSSMANN®
Impact Excel

C3X-LGE – Multi-Deck Convertible, Low Front With Glass

C3X-LGEP – Multi-Deck Convertible, Low Front With Glass & E Plus Coils

Available in 6', 8' and 12' lengths.

Superior Merchandising

The C3X is a medium capacity, high performance convertible merchandiser that will comfortably handle four merchandising levels. Shelves can be placed in any position due to the recessed shelf wiring harness channel in Excel. The C3X does an excellent job with any medium temperature product, including dairy, deli, pre-cut and packaged produce. Its low front with glass provides merchandising flexibility and maximum product capacity.

Lower Energy Costs

Standard high efficiency coils in the C3X keep energy costs down. Integrated night curtains and LED shelf and canopy lights are optionally available to further reduce energy costs.

Superior Shelf Life

Modular coils and off-time defrost help reduce thermal shock and stabilize product temperatures, resulting in better freshness and longer shelf life.

Lower Labor Costs

Labor saving features include easier access for cleaning under the case, easy-to-clean bathtub bottom (no coil in the bottom of the case), adjustable feet and simplified raceway access for quicker installation, and more.

Superior Reliability

Our five year modular coil warranty is the best available. Pre-set expansion valves are designed to hold optimal temperatures throughout the life of the case.

Note: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75°F and 55% RH.

Note: We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions or replacements for equipment previously sold or shipped.
