

## Genuine Hussmann Parts for Optimal Case Performance

### Coils

Easily replace damaged coils with Hussmann coils that include:

- Brackets and connection points that meet OEM specifications to ensure product fit and trouble free installs.
- Fins, tubes, passes, and fin spacing designed to precise OEM specifications for optimal case performance.
- Coatings tested to support reliable performance per case application.

### Modular Coils

- Patented design modular coils require 50% to 60% less refrigerant and provide improved product temperatures.
- With continuous tube coils, all return bend joints have been completely eliminated dramatically reducing the chance of refrigerant leaks.
- All-aluminum design is lighter for easier install and recycling.
- Copper stubs simplify coil connections.
- Smaller diameter tubing is more puncture resistant.
- Standard and high efficiency coils and components available.

**Hussmann original parts that fit right and keep your equipment running like new.**

We are your experts in display cases and refrigeration systems, and we provide parts that will deliver optimized performance for all Hussmann equipment.
