

Performance Parts

Genuine Hussmann Parts for Optimal Case Performance

Heaters

- Install quickly by fitting into original mounting brackets and clips without modification.
- Lead wires are color coded and cut to correct length to simplify connections.
- Meet original specifications for optimizing case performance and energy efficiency.

Defrost Heaters

Designed for closely controlled off-time defrost cycles which reduce thermal shock to foods increasing product shelf life and reducing spoilage to enhance store profitability.

Drain Pan Heaters

Perform to precise operating specifications for each Hussmann model to prevent frost and moisture accumulation in the case.

Frame Heaters

Optimized to place the right amount of heat in different areas of the frame to prevent condensation and maximize energy efficiency.

Evaporator Pan Heaters

Designed to efficiently evaporate the condensate water when floor drains are unavailable.

Hussmann original parts that fit right and keep your equipment running like new.

We are your experts in display cases and refrigeration systems, and we provide parts that will deliver optimized performance for all Hussmann equipment.
