Cabinet Directory solutions far from the ordinary

FEATURES

- Anodized metal framework
- Waterproof materials used in construction of cabinets
- Your choice of materials for doors, panels, and fillers: metal or wood
- Adjustable leg levelers on each cabinet
- Complete seamed countertops for bars and runs
- Open interior frame for easy access by all trades

ADVANTAGES

- Lightweight cabinets are easy to move, store, position, and install
- Waterproof construction prevents liquids from being absorbed, eliminating the risk of cabinet rot and the need for replacements
- Match the look of your existing finishes, or start fresh with a new look

FOUNDATIONS

- Strict following of adherence to ANSI/AWI 0641-2019 - Architectural Wood Casework Standard guidelines for premium cabinet construction using quality materials and fabrication methods
- Application of rigorous internal quality control standards, including structural integrity testing
- Easy installation with well labeled, packaged and crated cabinets
- Freight photo document, packing list, and instructions supplied to customer prior to receiving shipment
- Standard, modular sizes designed for all applications of retail cabinets - transaction / sales counter, island, wall, and peninsula layouts

MATERIAL SELECTIONS

Framework: grey or black

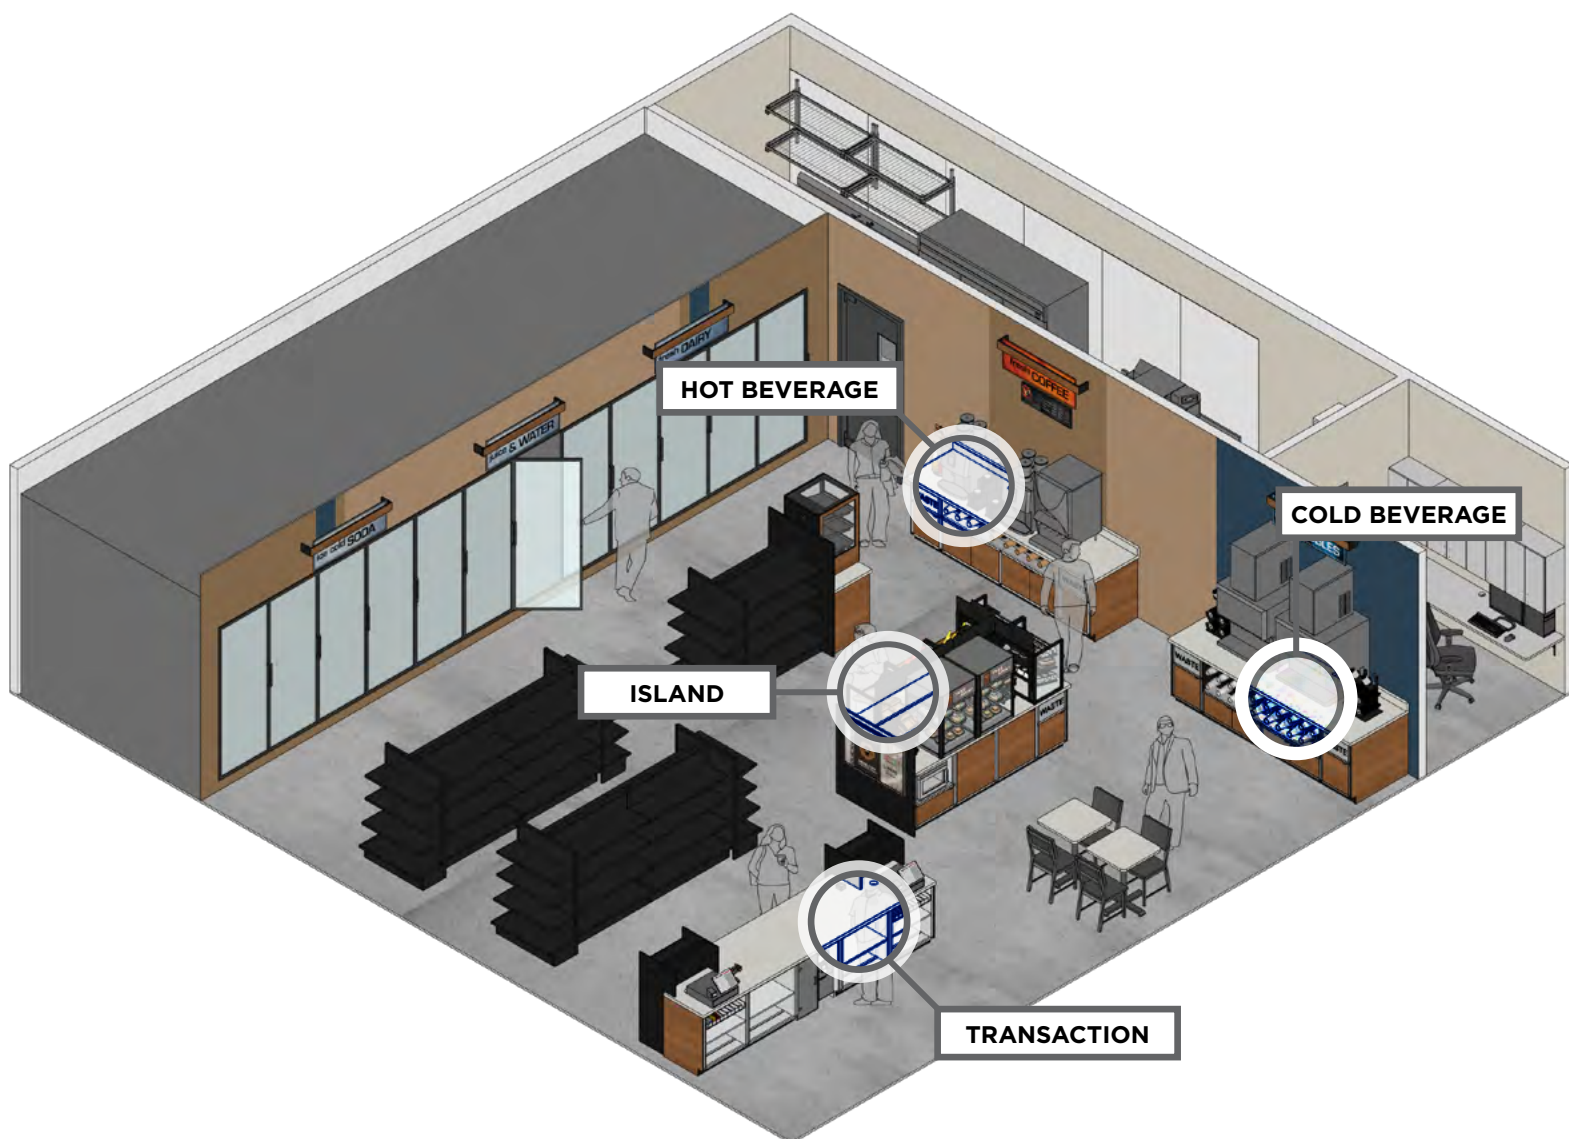

Doors: laminated inset metal or wood

Countertops: laminate, solid surface, or stainless

QUALITY COUNTERTOPS

Countertops are essential touchpoints and a clear reflection of brand quality. With a wide range of finish options, our countertops create a welcoming environment.

LAMINATE

Colors complementing your cabinets for a timeless look

SOLID SURFACE

Includes durable substructure to prevent tops from sagging

STAINLESS STEEL

Ultimate in durable good looks that last and last

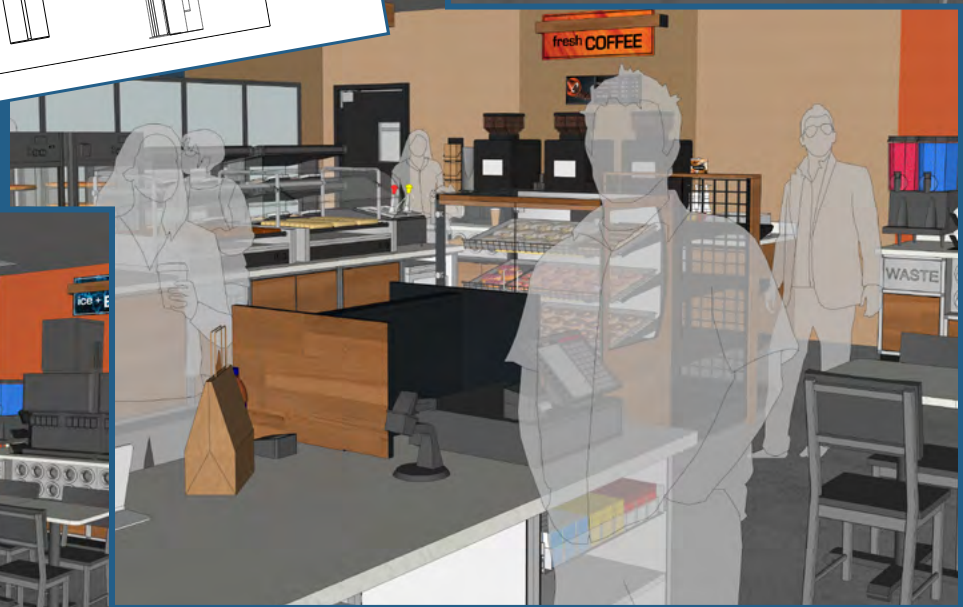

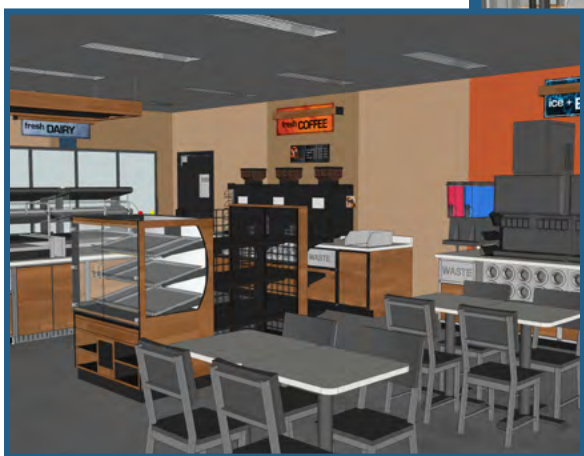

We can help you

Layout Assistance

Are you planning a refresh or remodel of your retail space?

We can provide you comprehensive interior floor design services, including 2D and possible 3D layouts that detail the retail configurations, highlighting the cabinets for production and installation.

This ensures you have the best solution for optimal functionality and aesthetic for your retail space.

EXAMPLES

Sample store interior showing transaction with standard surfboards, large island, and standard beverage wall cabinets

EXAMPLES

Sample store interior showing transaction with upgraded surfboards, small island, and beverage and food service run.

Nationwide Installation and comprehensive services

Providing our customers with nationwide cabinet installation is not the only service we offer. With strong relationships with food retailers and store owners locally, regionally, and nationwide, we pride ourselves with the ability to do whatever it takes to get your space up and running. Our comprehensive services cover everything from site surveys, to drawing and design, to dedicated project management services, to manufacturing and production, and installation - including small remodels to full stores. The goal is complete satisfaction for you and your customers.

Color Suggestions HYBRID / METAL

Colors based on your suggestions

We work with all major laminate providers including Wilsonart, Pionite, and Nevamar. And solid surface companies as Corian and Wilsonart. Each are broken into typically low / mid / and upper levels. Other colors can be sourced however, but the groups and manufacturers listed are the most commonly used.
