# HUSSMAnn®

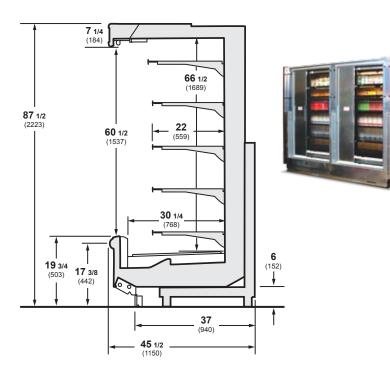

# C6X-LRE

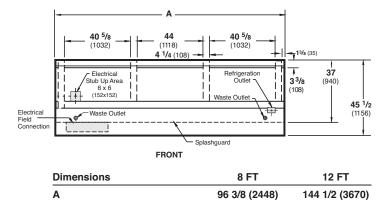

Excel High Capacity, Multi-Deck Convertible Merchandiser with Rear Load-In for Medium Temperature Applications

# C6X-LRE - High Capacity, Multi-Deck Rear Load Convertible

Available in 8' and 12' lengths. Contact your sales rep for information on possible availability of additional case lengths.

#### Plan View

#### Notes:

Case-to-case electrical connections are made in front of splashguard. Overall case length without ends or partitions. Contact your sales representative for information on possible availability of additional case lengths.

#### Note

Use Hussmann's technical data sheets to get precise dimensions for all store layout purposes.

### Superior Merchandising.

The C6X-LRE combines merchandising impact and capacity with the convenience of rear-loading. It is designed to display dairy and deli products. Full view glass ends and stainless steel reflective ends are optionally available to help you create an endless product view. Shelves can be positioned at any height for greater merchandising flexibility. Optional lighted canopy signs also available.

### Rear Sliding Doors for Easy Stocking.

The C6X-LRE is designed for easy rear loading from a cooler adjacent to the back of the case. Product is stocked quickly and stays cold. Overlapping, sliding doors in each 4' section provide excellent access to the full merchandising area.

### Lower Energy Costs.

Standard high efficiency coils help reduce your energy bills. Optional integrated night curtains will further reduce energy costs.

# Superior Shelf Life.

Modular coils with off-time defrost help keep refrigerated temperatures extremely stable, reducing thermal shock.

### Lower Labor Costs.

Labor saving features include easier access for cleaning under the case, easy-to-clean bathtub bottom (no coil in the bottom of the case) and simplified raceway access for quicker installation, and more.

### Superior Reliability.

Our five year modular coil warranty is the best available. Pre-set adjustable expansion valves are designed to hold optimal temperatures.

Hussmann refrigerated merchandisers configured for sale for use in the United States meet or surpass the requirements of the DOE 2017 energy efficiency standards.

NOTE: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75°F and 55% R.H.

NOTE: We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped.
