

HUSSMANN®

EcoVision Walk-In Glass Door System

Now, an EcoVision Walk-In Glass Door that matches
EcoVision Multi-Deck Case Doors.

Door components tested to 99% reliability at 10 years.

Advanced merchandising with lower energy cost.

HUSSMANN

EcoVision Walk-In Glass Door System

Easy to see. Easy to shop.

The EcoVision Walk-In Glass Door System has been designed to address the unique conditions of glass door merchandising.

Doors

- EcoVision Walk-In Glass Doors match EcoVision Multi-Deck Case Doors for visual consistency in your store
- Heat-free door design
- Energy efficient
- Built-in durability

Frame

- Durable construction
- State-of-the-art lighting
- Simple serviceability

Easy Gravity Feed System

Optimized for Walk-In Coolers, this gravity feed shelving pushes product forward so it is easy for shoppers to see and easy to stock from the rear.

Features

- Heat-free glass door – only the cooler frame is heated to prevent condensation
- 24" x 75" French glass double-door design for great visibility with easy shopper access
- Non-metallic frame for superior insulation
- EcoShine II lights for canopy and/or mullions
- A very thin, single post mullion with surprisingly narrow width and depth for excellent product visibility
- Shelving system with 48" wide by 27" deep shelves; extremely durable

Rugged Construction

The EcoVision Walk-In Glass Door System features a molded case frame made with strong, non-conductive material and superior insulation that enhances energy efficiency. The durable construction of the frame maintains the overall integrity of the entire display area.

Excellent Visibility and Shopper Access

Advanced EcoShine II LED Lighting

LEDs optimized for products displayed in walk-in coolers.

- Superior energy savings versus fluorescent
- Enhanced product visibility
- Optimized for rack and product spacing
- Excellent durability with 5- to 7-year lamp life
- 5-year warranty on LED lights and power supply

Superior Form and Function

- French glass doors with no center mullion provide outstanding view of products from every angle
- With EcoShine II LED lights, products sparkle behind these doors, creating merchandising and illumination advantages
- New ultra-thin glass door perimeter and handle design provides greater merchandise visibility
- Gray and black color options now available. (Color selection comes with matching trim, handles, frames, and mullions)
- Narrow 24" French glass doors help preserve aisle space and improve peak traffic flow
- New concave wiper design reduces door-to-door interference, maximizes energy savings, and helps keep glass moisture-free
