

Freedom Line Reach-In Cases

RFLNS / RFMNS NARROW FOOTPRINT

Designed for easy installation, low energy costs
and great merchandising. Flexibility of top-mounted
or remote refrigeration.

Top section is field installed after case is set in place.

Available Sizes:
- 3, 4, and 5 door models
- Can be connected to create line-ups

79-1/2" from top-to-bottom as shipped for easy clearance through most standard doorways.

Enhanced décor available to attract shoppers.

35-1/2" from front-to-back lets case fit through most standard doorways.

RFLNS / RFMNS NARROW FOOTPRINT

Freedom Line Reach-In Case

Specifically designed for small format stores and easy to load through standard doorway.

Enabling Excellence in Small Format Stores

We've dedicated our resources to help small format stores succeed in perishable food sales. We can help you overcome the challenges of successful food retailing.

Husmann Display Case Leadership

Husmann patented the first refrigerated display case in 1917 and has been helping retailers profitably sell perishable foods ever since.

Energy Efficiency Leadership

With Husmann's long history of innovation, it's no wonder our narrow footprint Freedom Reach-In for small format is the most energy efficient of any similar case available.

Merchandising Leadership

Our display case designs, lighting solutions and glass door innovations are all focused on one thing: to help you sell more perishable foods. **That's how we think, it's what we do.**

Value of Narrow Footprint Freedom Line

Hussmann's narrow footprint Freedom Reach-Ins for small format provide exceptional benefits in merchandising, efficiency, quality, and ease of installation and use, including:

- Easy to load into stores through standard doors (80"x 36" frame or greater)
- Plug and Play convenience
 - Once the cases are installed, just plug in; no drain required
- Innovator doors for exceptional efficiency
 - Three doors available:
 - Innovator for extreme ambient conditions
 - Innovator II for normal conditions, our most efficient door
 - Innovator III for all ambient conditions plus high efficiency
- EcoShine II LED lights
 - Customized to create dramatic visual impact in each case with bright, uniform light distribution
 - Up to 71% more efficient than fluorescents
 - Long life, lower maintenance costs
- Reflective door mullions extend the visual impact of merchandise
- Microban® antimicrobial protection on door handles and shelves
- More display capacity than typical self-contained models
- Narrow footprint keeps required floor space to a minimum
- Factory installed electronic controls
 - Temperature and defrost controls
 - Temperature alarm and time clock

Refrigeration Flexibility

Top Field-Mounted Condensing Unit Option

Freedom cases can also be remotely piped to refrigeration racks or condensing units.

Easy Installation:

- No drains required; condensate removal system with pump and condensate pan are factory installed
- Refrigeration lines are pre-charged and pre-piped to top of case with quick-connect; threaded couplings for easy condensing unit installation
- Pre-wired and labeled to simplify electrical connections
- Facade conceals top-mounted refrigeration and electrical components

Larger Size Case Options:

- Our larger capacity RFLN and RFMN Freedom Line Reach-In cases are also available when doorway restrictions are not a concern
- 83" tall x 39-3/4" deep
