Innovator / Innovator II /
NEW Innovator III with Enhanced Visibility
GLASS DOORS FOR REACH-INS

Lower energy costs

Exceptional product visibility

Designed for all ambient conditions

Next-generation quality and reliability

Hussmann is the innovative
leader in glass doors for
reach-ins

Innovator Series

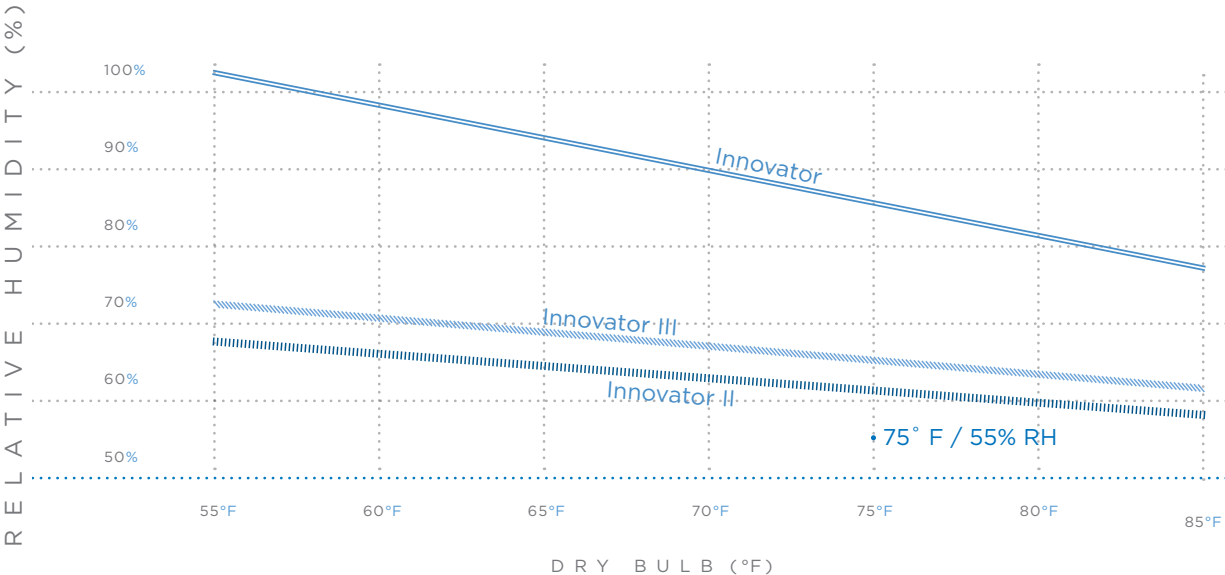

NEW INNOVATOR III with Enhanced Visibility

Now we're creating a new benchmark in all-climate door efficiency and merchandising impact with our latest offering, Innovator III with enhanced visibility. It works well in all ambient conditions, from normal to extreme. It is 43% more efficient than our Innovator door and provides 13% total case energy savings compared to a case with Innovator doors.

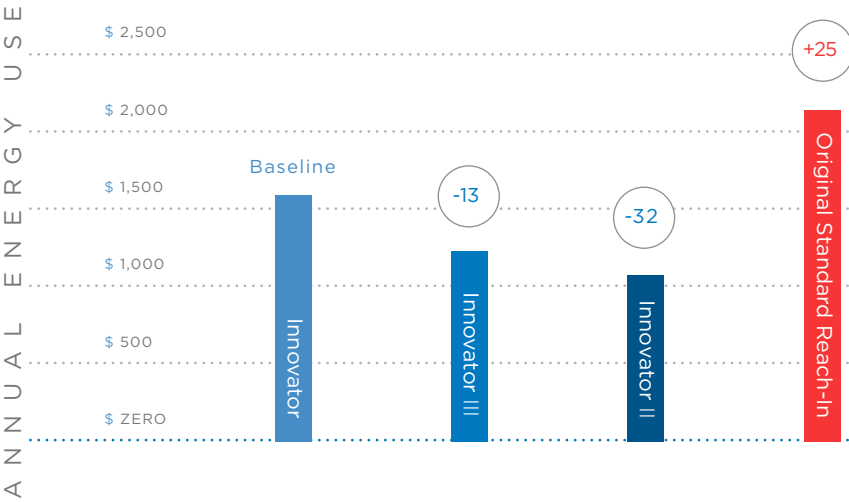

Performance Range Comparison

Each Innovator door performs well in the area of the graph below the relevant door line.

Reach-In Energy Use Comparison

The original “standard” reach-in has Innovator doors, flourescent lights and standard fan motors. The remaining three bars represent reach-ins with our current door offerings plus EcoShine II LED lights and energy efficient fan motors.

A door for every ambient condition

EXTREME TROPICAL

● INNOVATOR

Best suited for extreme tropical conditions

● INNOVATOR II

Best suited for normal conditions

NORMAL

● INNOVATOR III

Best suited for all conditions, normal to extreme

Greater Reliability

All Innovator doors have undergone extensive field and lab testing and have been redesigned and enhanced to provide exceptional reliability throughout the life of the door. In fact, our new Innovator III doors have been tested to 99.2% reliability after 10 years.

New EcoShine II LED Lights

All Innovator doors come standard with EcoShine II LED lights which attract shoppers by highlighting the color of frozen or refrigerated displays, from ice cream to beverages. Lights are optimized to make products vivid and appealing while substantially reducing energy costs.

DOE Energy Efficiency Compliant

All Hussmann reach-ins with Innovator, Innovator II or Innovator III doors meet or surpass the DOE 2017 standards.

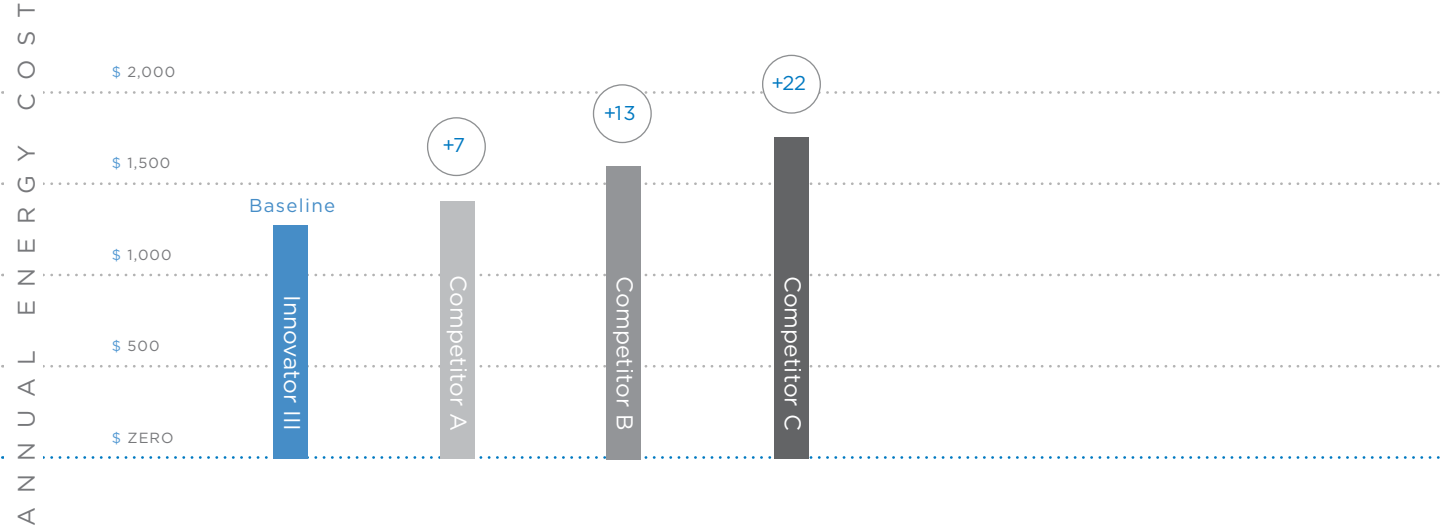

NEW Innovator III with Enhanced Visibility

The best option for most applications

As an all-climate door, Innovator III provides the best combination of features in most stores. It offers superior product visibility and merchandising impact, excellent energy efficiency, world-class quality and reliability, and outstanding performance at almost all indoor temperature and humidity levels. And, compared to Innovator, the 13% case energy savings of Innovator III has a direct impact on profitability.

Innovator III Competitive Energy Cost Comparison

Based on total case energy usage with LEDs and energy efficient fan motors in all.
