

Model ME5X-GP shown with options.

ME5X-GP

Ultra-Efficient Meat Case

- Cuts case energy costs by 12% compared to our traditional high-efficiency meat case.
- Improves temperature stability.

ME5X-GP

ULTRA-EFFICIENT MEAT CASE

Save 12% or more in energy costs.

The ME5X-GP meat case is by far our most energy efficient 5 deck meat merchandiser. In addition to cutting energy costs, it also provides more consistent temperature stability which can help prolong shelf life.

EcoShine II LED Lighting standard.

- All ME5X-GP Ultra-Efficient Meat Cases come with Hussmann's EcoShine II shelf lights that save 66% in light energy compared to T-8 fluorescents.
- EcoShine II shelf lights provide superior cleanliness and reliability with industry best IP67 certification to help keep moisture and fluids out of light fixtures.

Unique center air shelf for lower energy costs.

- The ME5X-GP includes an additional air discharge under the center display shelf. This reduces energy consumption by 12% when compared to our traditional high efficiency meat case and operated at AHRI conditions.
- Temperature stability is also improved as product temperatures are maintained at more consistent levels throughout the case.

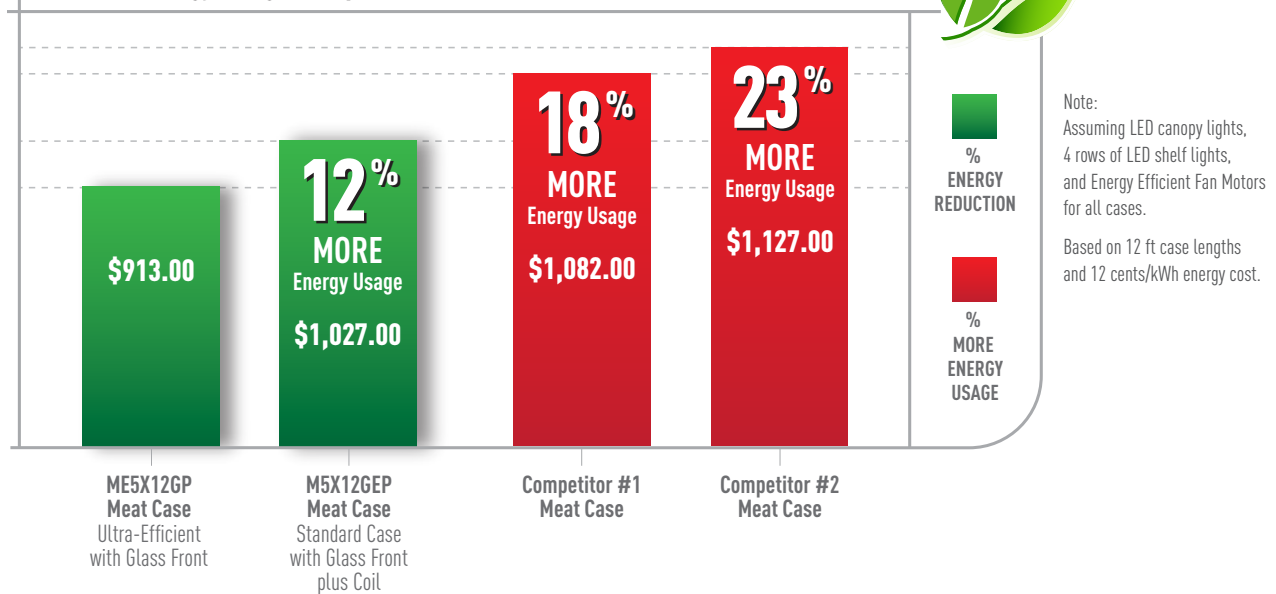

Flexible merchandising.

- Center air shelf can be placed in a defined range of multiple positions, allowing merchandising flexibility with variable shelf spacing.
- Like other shelves, the air shelf can be removed for easy cleaning.

MICROBAN® antimicrobial protection on shelves.

- MICROBAN technology on all shelves, including air shelves, protects against stain and odor causing bacteria for a cleaner shopping experience.
- Continuous protection for the life of the case.

Meat Case Annual Energy Usage Comparison

How does it work?

Hussmann has designed a new patent-pending air shelf that is included in every ME5X-GP Ultra-Efficient Meat Case. The shelf works as a sequential air curtain, enabling the case to run at tighter temperatures and reduce energy use.

Recommended shelving.

Recommended shelving depths for four rows of shelving are: 14", 16", 18", and 18". All air shelves are 18".

HUSSMANN®

Husmann Excel Meat Merchandiser with Ultra-Efficient Air Shelf Technology

ME5X-GP - Ultra-Efficient Air Shelf Technology

Available in 8' and 12' lengths. Contact your sales rep for information on possible availability of additional case lengths.

Plan View

Dimension	8 FT	12 FT
A	96 3/8 (2448)	144 1/2 (3670)

Notes:

Overall case length without ends or partitions.

Note

Use Husmann's technical data sheets to get precise dimensions for all store layout purposes.

Excel Meat Merchandiser.

- Ultra-efficient meat merchandiser saving 12% or more in energy costs.
- Providing more consistent temperature stability which helps prolong shelf life.
- Five deck with center air discharge display shelf.
- EcoShine II LED lights on all shelves.
- MICROBAN® antimicrobial protection on all shelves.
- May be used for produce.

Husmann refrigerated merchandisers configured for sale for use in the United States meet or surpass the requirements of the DOE 2017 energy efficiency standards.

NOTE: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75°F and 55% R.H.

NOTE: We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped.
