

ADVANTAGES

- Superior food quality from more stable and uniform product temperatures
- Energy and sustainability benefits through case components
- Better structural integrity from “unibody” constructed design
- Superior merchandising with ellipse and faceted design options

KEY FEATURES

- Freedom Line cases are designed to accept a field-installed top-mounted condensing unit or connect to a remote refrigeration system
- Ultra low front provides better product visibility
- Highly efficient design helps keep energy costs lower than other options
- All electrical parts/connections in the display area are rated to IP67 and can be sprayed with water
