NOTE: Case-to-Case Electrical Connections are made IN FRONT OF SPLASHGUARD.

Note

Use Husmann's technical data sheets to get precise dimensions for all store layout purposes.

Superior Merchandising

The P4NX-EP creates a dramatic, highly flexible display that can be used for a wide assortment of product types. It has a narrow footprint, which saves floor space. Superior display options include full vision glass ends, illuminated canopy signs and improved ledge lighting. This model also allows greater shelf placement flexibility.

Lower Energy Costs

The "highest efficiency" E-Plus coils are standard. Optional night curtains will further reduce energy by about 12%.

Superior Shelf Life

Modular coils and off-time defrost reduce thermal shock and stabilize product temperatures. Modular defrost, optional, further stabilizes temperatures.

Lower Labor Costs

Labor saving features include greater clearance under the case, easy-to-clean bathtub bottom, easier raceway access, 2-ft honeycomb sections, easily removable interior panels and more.

Superior Reliability

Our five year modular coil warranty is the best available. Pre-set, adjustable expansion valves are designed to hold optimal temperatures.

Husmann refrigerated merchandisers configured for sale for use in the United States meet or surpass the requirements of the DOE 2017 energy efficiency standards.

NOTE: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75°F and 55% R.H.

NOTE: We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped.
