

## Clean Inside of Case Often

Ask department manager or maintenance where to shut off power. **CASES DO NOT HAVE A SWITCH!**

1. Move product to cooler.
2. Shut off electrical service to case.
3. Remove shelves and pans.
4. Lift fan plenum.
5. Take out loose waste matter.
6. Clean all surfaces with detergent.
7. Rinse with hot water.
8. Sanitize as directed by local code. Let Dry.
9. Restore power and cool down before restocking.

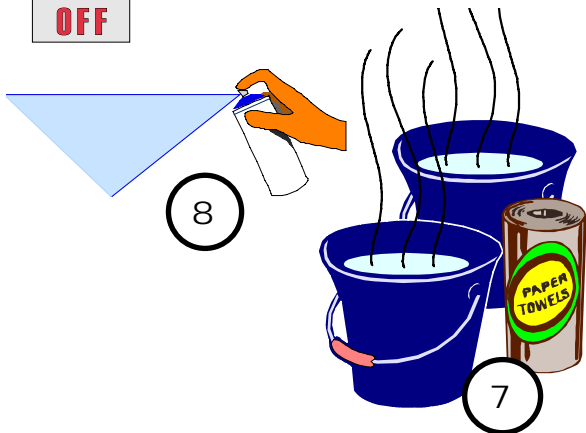

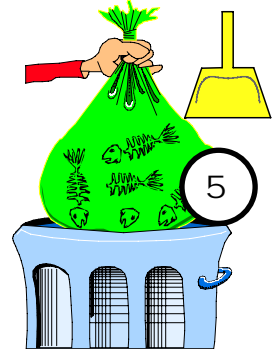

### CAUTION!

**DO NOT USE STEAM OR HIGH PRESSURE HOSES.**

**DO NOT USE MINERAL OIL BASED SOLUTIONS.**

**KEEP WATER OUT OF FAN MOTORS.**
