DOE 2017
Energy Efficiency
Compliant

Hussmann refrigerated merchandisers configured for sale for use in the United States meet or surpass the requirements of the DOE 2017 energy efficiency standards.

#### Dimensions shown as in. & (mm).

Estimated	d Charge **	t .	E2S
4 ft	0.9 lb	14 oz	0.4  kg
6 ft	1.8 lb	29 oz	0.8 kg
8 ft	1.9 lb	30 oz	0.9 kg
12 ft	2.9 lb	46 oz	1.3 kg

<sup>\*\*</sup>This is an average for all refrigerant types. Actual refrigerant charge may vary by approximately half a pound (8 oz/0.2 kg).

#### **NSF** Certification

This merchandiser model is manufactured to meet NSF/ANSI (National Sanitation Foundation) Standard #7 requirements for construction, materials & cleanability.

# Elite E2S Meat, Delicatessen Precut & Packaged Produce

#### REFRIGERATION DATA

**Note:** This data is based on store temperature and humidity that does not exceed 75 (°F) and 55% R.H.

	E2S§			
	MEAT	DELI		
Discharge Air (°F)	25	28		
Evaporator (°F)	18	21		
Unit Sizing (°F) 16 19				
§ Average evaporator	temperatui	re		
shown Use day point	for high a	lida		

§ Average evaporator temperature shown. Use dew point for high glide refrigerants for unit sizing. Care should be taken to use the dew point in PT tables for measuring and adjusting superheat. Adjust evaporator pressure as needed to maintain discharge air temperature shown.

Btu/hr/ft		
Parallel	819	779
Conventional	899	849

#### **DEFROST DATA**

#### **SHELF CONFIGURATION**

This merchandiser is designed for two shelves.

This illustration shows recommended shelf depth and shelf angle for the two locations.

It is critical to case performance that no product, shelf or stop extend beyond the load limit, as shown in this illustration. This configuration supports the air curtain and provides optimal case performance.

Check with Hussmann engineering before using a different configuration.
